Re: O'Connor Construction Group

I am writing this letter to express my appreciation to you and your company on the completed and on-going projects at United States Cold Storage, Inc, Fort Worth facility. The office build out for our traffic division, looks professional. The custom conference table you made for us is impressive. The replacement of the evaporator, in the penthouse, went as smoothly and safely as could be. Our roof project went well and was completed on time. The attention to small details and safety speak volumes of the type of work your company does on a consistent basis.

If you ever need a recommendation for a new client, please feel free to share my comments.

Sincerely,

Frank Monroe  
United States Cold Storage, Inc.  
Fort Worth Facility – General Manager
